

Milan, May 19, 2017

For the seventh time a selection of the best Italian companies in the hospitality sector exhibited under the umbrella name of **ItalianContract4HospitalityDesign** (ic4hd) at **HD Expo** – the most important trade show for the segment on the US market.

The expo took place **from May 3rd to 5th** at the Mandalay Bay Convention Center in **Las Vegas** and registered an important increase in the number of specialized visitors. 2017 edition attendance was just over 11,500 visitors coming from 60 different countries with a total of 865 exhibiting companies.

Architectural firms, designers, specifiers, contractors, developers, owners and purchasing offices of hotels, restaurants, cruise ships, casinos and residences visited the fair both to **check out the latest products** presented by the exhibitors and to **show the projects in their pipelines**.

Thanks to **the excellent position on the two main corridors**, and to the **intense promotional activities** prior and during the show ItalianContract4HospitalityDesign was visited by important architects, designers and specifiers.

All the Italian Contract proposals stirred up great attention and enthusiasm: from seating with **Tirolò Sedie** to minibars with **Indel B**, from carpet and rugs with **Loloey** to stone flooring and wall coverings with **Lithos Design**, from wall covering mosaics with **Mosaico Digitale** to wood flooring with **Stile Società Cooperativa**, up to the 5 ceramics companies **Atlas Concorde**, **Cooperativa Ceramica d'Imola**, **Lea North America**, **Marca Corona** and **Mirage**.

Each company shown some news, embodying the best of *Made in Italy* for high quality and design.
